Hello SimpleTrials user,

We hope your journey with SimpleTrials is going well. This month's Feature of the Month is about EDC Integrations. If you are curious to learn more, please keep reading!

Setting up an EDC Integration with SimpleTrials is available out of the box at any time! Users can select the EDC vendor, complete integration settings, test the integration and set 'go live' all directly within SimpleTrials. Our expert team can walk you through it for your first study - it's that easy.

This is an optional, paid feature that allows subject records and subject visit data to be automatically populated (created and updated) from a supported EDC system to SimpleTrials on a nightly basis. (NOTE: EDC Integration credits must first be purchased in the ADMIN>SUBSCRIPTION & SETTINGS view.)

A successful EDC integration will allow you to:

- Automatically have study information such as enrollment updates, subject status, and subject visit dates flow into SimpleTrials on a daily basis to eliminate manual entry and/or imports
- Have SimpleTrials automations update relevant fields including site payments for subject visits
- Enable your monitoring team to complete subject tracking items easily within site visit reports

SimpleTrials has integrated with 15+ well-known EDC vendors including Medrio EDC, Castor EDC, OpenClinica, Viedoc, Medidata Rave, ClinCapture, Captivate, iMedNet, and REDCap Cloud.

- Note: If your EDC vendor is not supported, the SimpleTrials team is able to establish the details and programming required for a successful transfer of data from the vendor to SimpleTrials.

If you have any questions or if we can be of any assistance, please contact your assigned client manager (Premium Plus clients) or email us at customersuccess@simpletrials.com.

Sincerely,

The SimpleTrials Team
